

# I Don't Care About Your Heart

Dead or Alive

On my energy  
You were such a strain, yeah  
It's better if I do not see you again  
Oh, oh, oh, oh

Though I miss you 'round  
And then worst of all  
I never, ever call you  
When I say I will  
Can you feel a clown?

Truth is standing right before your eyes  
I never said to you, I'd tell no lies  
Get up, stand up, write it on your heart  
You never get enough, you never get enough

I don't care about your heart  
Or about the promises I made  
It's all a big mistake  
Your heart will have to break  
I don't care about your heart  
Or about the promises I made  
It's all a big mistake  
Your heart will have to break

Do I leave you here?  
And I'm never 'round  
You know I'm always somewhere out of town  
Getting down, getting down

Truth is standing right before your eyes  
I never said to you, I'd tell no lies  
Get up, stand up, write it on your heart  
You never get enough, you never get enough

I don't care about your heart  
Or about the promises I made  
It's all a big mistake  
Your heart will have to break  
I don't care about your heart  
Or about the promises I made  
It's all a big mistake  
Your heart will have to break

Now, tell me  
What makes you think that  
We could be friends?  
But I never, never, never  
Wanna see your face again  
No, see your face again

I don't care about your heart  
Or about the promises I made  
It's all a big mistake  
Your heart will have to break  
I don't care about your heart  
Or about the promises I made

It's all a big mistake  
Your heart will have to break

Now baby, you and me  
No, it shouldn't be  
Together, together  
No, no, no, no  
Now baby, you and me  
No, it shouldn't be  
Together, not together

I don't care about your heart  
Or about the promises I made  
It's all a big mistake  
Your heart will have to break  
I don't care about your heart  
Or about the promises I made  
It's all a big mistake  
Your heart will have to break
