

Where Is the Love

Dead or Alive

Why does it turn all night
I can't find no-one to hold?
To make it tell me it's my darkest hour
Why do I feel so alone?

An occasional thing reminded me
Some things are best left to destiny
When I looked everywhere
And I never found no-one like you, woh...

(I don't want to get over)
Where is the love I thought I had?
(I don't want to get over)
Where has it upped and gone to?
(I don't want to get over)
Where is the love that can't be bought?
(I don't want to get over)
I need some time to hold on to

When I heard of all the lies
And I sit here on my own
I wished that I could ask someone
What have I done wrong?

An occasional thing reminded me
Some things are best left to destiny
But I looked everywhere
And I never found no-one like you, no, no...

(I don't want to get over)
Where is the love I thought I had?
(I don't want to get over)
Where has it upped and gone to?
(I don't want to get over)
Where is the love that can't be bought?
(I don't want to get over)
I need something to hold on to

Where are you?
Where are you?

(Where?)
(Where?)
(Where?)

An occasional thing reminded me
Some things are best left to destiny
But I looked everywhere
And I never found no-one like you, no, no...

(I don't want to get over)
Where is the love I thought I had?
(I don't want to get over)
Where has it upped and gone to?
(I don't want to get over)
Where is the love that can't be bought?
(I don't want to get over)

I need something to hold on to

(I don't want to get over)
Where is the love I thought I had?
(I don't want to get over)
Where has it upped and gone to?
(I don't want to get over)
Where is the love that can't be bought?
(I don't want to get over)
I need something to hold on to...
