

Darkside

Dead Posey

Run run into the night
Dead stare in our eyes
Cut all the ties of our past lives
Not the ones you think you know
Never be a part of your show
Drowning you out with the static on the radio
And away we go

We'll be moonstruck lunatics
Caught on the dark side
Like Bonnie and Clyde
We'll be chasing the headlights
As we ride as we ride
Through the dynamite
Eye for an eye
Feed our appetites
We'll be moonstruck lunatics
Caught on the dark side

Whispers in the desert sky
Shapeshifters left behind
Outsiders on the sharpened edge of time
Never caring where we'll be
If you're the one right next to me
Pedal to the floor and now we're falling free

We'll be moonstruck lunatics
Caught on the dark side
Like Bonnie and Clyde
We'll be chasing the headlights
As we ride as we ride
Through the dynamite
Eye for an eye
Feed our appetites
We'll be moonstruck lunatics
Caught on the dark side

Yeah we'll never be satisfied
This love will never die
There's no one but you and I
So take me tonight
Dead or alive

We'll be moonstruck lunatics
Caught on the dark side
Like Bonnie and Clyde
We'll be chasing the headlights
As we ride as we ride
Through the dynamite
Eye for an eye
Feed our appetites
We'll be moonstruck lunatics
Caught on the dark side
