

# Holy Roller

## Dead Posey

You got the last train out of town  
You got a bloodstain on your crown  
You got a one way ticket down  
Now you're goin' home  
To where the bad souls go

When you close your eyes at night  
I'll be standin' by your bedside  
Yeah it's gonna be me  
That'll eat you alive

Bring you down like a holy roller  
On your knees but father won't save ya  
Comin' back gonna get some closure  
You got yourself crucified  
When you're lookin' over your shoulder  
See the darkness comin' right for ya  
Bring you down like a holy roller

You had the hunger in your eyes  
You were my hunter in disguise  
Now you'll pay for my demise  
Cause the time has come  
To get back where you're from

When you close your eyes at night  
I'll be standin' by your bedside  
Yeah it's gonna be me  
That'll eat you alive

Bring you down like a holy roller  
On your knees but father won't save ya  
Comin' back gonna get some closure  
You got yourself crucified  
When you're lookin' over your shoulder  
See the darkness comin' right for ya  
Bring you down like a holy roller

When you close your eyes at night  
I'll be standin' by your bedside  
Yeah it's gonna be me  
That'll eat you alive

Bring you down like a holy roller  
On your knees but father won't save ya  
Comin' back gonna get some closure  
You got yourself crucified  
When you're lookin' over your shoulder  
See the darkness comin' right for ya  
Bring you down like a holy roller
