

She Went Bad

Dead Posey

She went bad
Made her pretty little world turn black
Miss perfect never had a chance
Threw a middle finger up
She's heading to hell anyway

I'm messed up
I'm scuffed up
Underneath a little rough
I'm sick and kinda fucked up
I was born to be a sinner
But mama always wanted me to be a saint

Killed the girl I pretended to be
I buried her six feet deep
I'm done playin' nice
You know this one bites
Don't give a damn if it's wrong or right

She went bad
Made her pretty little world turn black
Miss perfect never had a chance
Threw a middle finger up
She's heading to hell anyway

She went bad
Ain't nothin' gonna make her crack
You know she's never comin' back
Threw a middle finger up
She's heading to hell anyway
She went bad

I'm unglued
And kinda rude
I'm a bitch with a mood
A novacaine attitude
I don't need to be adored

I bet you think it's tragic
That I'm not a Barbie wrapped in plastic
I'm not sorry, I'm sarcastic
Don't mind me while I get a little manic

She went bad
Made her pretty little world turn black
Miss perfect never had a chance
Threw a middle finger up
She's heading to hell anyway

She went bad
Ain't nothin' gonna make her crack
You know she's never comin' back
Threw a middle finger up
She's heading to hell anyway
She went bad

Now the girl next door

Is laying dead on the floor
Yeah, the girl next door
You won't be seeing her no more
No more
No more

I went bad
Made my pretty little world turn black
Miss perfect never had a chance
Threw a middle finger up
I'm heading to hell anyway

She went bad
Ain't nothin' gonna make her crack
You know she's never comin' back
Threw a middle finger up
She's heading to hell anyway
She went bad

She's heading to hell anyway
She went bad
