

Liebe Liese

Dead to Me

Liebe liese, Ich bin frustrated
Can you see through gammas and betas?
Sneaking pass the Nazi border
With your lifes work under your shoulder

Liebe otto, I think I do... yes
I have results but I'm afraid of your test
Even tough it may seem forward
What if we're really just moving backwards now?

If we build it, they will bomb!
If we build it, they will bomb!
If we build it, they will bomb!

Liebe liese, Ich bin amazed how
Under the leaves you've figured it out now
The war is ours and I'll be famous
I'll forget to mention you cuz I'm a genius

Liebe otto, Ich bin offended!
Die Hunds of war you passively defended
Mushroom clouds make it dark below now
You can split the atom but you can't...
You can't split love!

If we build it, they will bomb!
If we build it, they will bomb!
If we build it, they will bomb!

Wahad!
