

## Undertow

Dead to Me

I see the myth as a business plan  
Sold to the earth as the fall of man  
It's a play on guilt that the pain of being brings  
Just because I'm broke, just because I get low  
Doesn't really mean the undertow is washing away our rational thoughts with it

They've got reasons for believing, but I have no reason to believe them now

I feel bad for better men that f\*\*ked up bad buy they times the m ten  
When they got on their knees and thought they could repent  
Just because it breaks just because the blood flows,  
Doesn't really mean that undertow, will carry away your heart with it out to sea

They've got reasons for believing, but I have no reason to believe them now!

Standing in the kitchen did you hear it call your name?  
Or sitting in your room consumed by all your shame?  
Its like staring at the sun hoping you can take it,  
We are staring at the sun hoping we can take it

They've got reasons for believing, but I have no reason to believe them now
