

She said boy you're out of luck  
This won't blow over  
When they come for us we can't return home  
Girl if I go just keep faith  
I'll never be gone just wait for that day  
I know it gets hard out here  
Verona's walls falling round our head  
I'll take this to heart all that they said  
This story don't end till Juliet's dead

I would give it all  
Just to feel alive  
Cause I don't want to feel  
Anything less tonight  
This is more to me  
Than I could ever dream  
THIS IS EVERYTHING!

Lets run away from everything  
Find a place to be  
There's one more thing I need to do before you go  
You need to know  
I know it gets hard out here  
Verona's walls falling round our head  
I'll take this to heart all that they said  
This story don't end till Juliet's dead

I would give it all  
Just to feel alive  
Cause I don't want to feel  
Anything less tonight  
This is more to me  
Than I could ever dream  
THIS IS EVERYTHING!

Take me down, one more night  
We both know, the story ends tonight  
This is where we part  
For you I am complete  
Goodbye for now!

I would give it all  
Just to feel alive  
Cause I don't want to feel  
Anything less tonight  
This is more to me  
Than I could ever dream  
THIS IS EVERYTHING!
