

Final Judgement

Deadlands

You made your own decisions
With this I have no doubt
Prepare for your excision
'Cause it's time to cut you out

I have found your vice
You have no alibi
More bark than your bite
Permission to crucify

Your case is closed with no getaway
You get what you get when you dull the blade
It's all you've manifested
This is your final judgement
Final judgement

Don't you try hypocrisy
I will not be condemned
Fulfill my prophecy
You'll never see my eyes again
You bite the hand that feeds you
Then crawl right back to me
You're just a lying bitch
The verdict shows that you are guilty

Your case is closed with no getaway
You get what you get when you dull the blade
It's all you've manifested
This is your final judgement
Final judgement

Defamation to the masses
For you no witnesses
Why don't you stop this madness
I won't take your maliciousness
You're damned to the prison of your consequences

Your case is closed with no getaway
You get what you get when you dull the blade
It's all you've manifested
This is your final judgement
Final judgement
