

Limbo

You leave me hollow but I beg for more
Taste of illusion that I can't ignore
I'll be forever fatally yours
Just say I'm what you live for

As we fall into place
I'm losing gravity
Baby, don't take away my fix of ecstasy
As we write in the stars another tragedy
Less I see, less I know
And I can't let you go
Limbo

Infatuated with the fantasy
A vital sign that I refuse to see
I crave the flawed connection
Let me be your obsession
I am the ember burning while ash fades away
Would it still be here had I never seen your face?

As we fall into place
I'm losing gravity
Baby, don't take away my fix of ecstasy
As we write in the stars another tragedy
Less I see, less I know
And I can't let you go
Keep me close
Limbo

I fell for your temptation
I'll lie in your damnation
I'll die a thousand times
If you would just be mine

As we fall into place
I'm losing gravity
Baby, don't take away my fix of ecstasy
As we write in the stars another tragedy
Less I see, less I know
And I can't let you go

As we fall into place
I'm losing gravity
Baby, don't take away my ecstasy
It's a shame I became another casualty
Less I see, less I know
And I can't let you go
Can't let you go
Keep me close
Limbo
