

## MORE!

### Deadlands

There is no way you can fight it (fight it)  
Corrode your soul for something selfishly indulged  
With all this time you are biding  
Your digging deeper into self-inflicted catacombs

Take take take leave nothing to waste  
You must consume everything because you live for the taste

If I take away the shame  
Could you face what's underneath  
Relapse, repeat, forevermore  
I've rotten to my core  
Give me more!

Get out, out of my head and out my flesh  
Just give me some silence or give me death  
You're aware what comes around goes  
Your discipline disposed  
I give an inch you take a mile  
So I've cut the rope

If I take away the shame  
Could you face what's underneath  
Relapse, repeat, forevermore  
I've rotten to my core  
Give me more!

Compulsion  
Repulsion  
The sins must be purged  
A wicked addiction  
Relinquish this curse  
Concede to voracity

If I saw what I became  
Would I finally turn the page  
If I take away the shame  
Could you face what's underneath  
Relapse, repeat, forevermore  
I've rotten to my core  
Give me more!
