# An Ocean's Monument

**DeadLock**

We put the fear of God into this world
We lost the war on the non-existent
We fought the greed of men among the dead
Altruistic, systematic

Down your love so I can drown, so I can drown my shame
Bring the drugs so I can numb, so I can numb my pain

You cried out the pain in words like plagues
A serpentine monument for the lambs
O'Brother - What made us fall from grace?
Destructive, systematic

An ocean
Of broken glass
An ocean
To drown the rats

Down your love so I can drown, so I can drown my shame
Bring the drugs so I can numb, so I can numb my pain
Drown your thoughts to let me dream, to let me dream again
And go with all the guilt and shame a thousand times - in vain

An ocean's monument
An ocean's monument
An ocean's monument
An ocean's monument
An ocean's monument
An ocean's monument
An ocean's monument
An ocean's monument

Down your love so I can drown, so I can drown my shame
Bring the drugs so I can numb, so I can numb my pain
Drown your thoughts to let me dream, to let me dream again
And go with all the guilt and shame a thousand times - in vain
