

Blood Ghost

DeadLock

A repent council
Feasting from night to day
No excuse, nor consciousness
Pure essence of decay

I speak the truth
A downfall cannot be beared
In dignity

My vicious nightmare
Still drenched in blood and lust
I'm breathing, yet suffocating
Memories to dust

Hold me
Please cure me from
The loneliness that constantly
Pulls me down

A repent council
Feasting from night to day
No excuse, nor consciousness
Pure essence of decay

There's a spark in the dark
I sense my inner fear
There's a path through my heart
I'll follow it, I'll reconcile

Hold me
Please cure me from
The loneliness that constantly
Pulls me down

'Cause when the bloodthirst hunts
'Cause when the bloodthirst hunts
'Cause when the bloodthirst hunts
I finally fade away

Lies sworn above all
This vicious circle
Consuming all my thoughts
Clenched within my chest
Until I'm dead

Sworn above all
Sworn above all

Hold me
Please cure me from
(Cure me from)
The loneliness that constantly
Pulls me down

When the bloodthirst hunts us all
I speak the truth

Lies sworn above
Lies sworn above
Lies sworn above
Lies sworn above all
