

## Frontline

DeadLock

Walking down the street and feel the cold  
Walking down the street and listening my heart  
Walking down the street and feel the cold  
Walking down the street and listening my heart

I have time to stay, I have time to fuck  
I have time to stay, I have time to fuck  
Here is my frontline, here is my frontline  
Here I am, and I will be

And now I am fighting with sadness
