

The Arsenic River

DeadLock

Underwater in the arsenic river
Our lungs collapsed in our hollow chests

What have our demons done?
Is this the shape of things to come?
What have our demons done?
What have we become?

Every single spoken word
Monotone
Each and every color
Monochrome
Every feeling
I am feeling
I am feeling
Overthrown
And caught inside this
And caught inside this monologue
(Overthrown)

We have become machine men with black hearts
And machine minds playing their game of crowns

Every single spoken word, monotone
Each and every color, monochrome

What have our demons done?
Is this the shape of things to come?
What have our demons done?
What have we become?

Every single spoken word
Monotone
Each and every color
Monochrome
Every feeling
I am feeling
I am feeling
Every feeling
I am feeling
I am feeling

I'm feeling numb
As always caught
Eternal circle
Only seeking forgiveness
The only way out

Underwater in the arsenic river
No lungs to breathe inside our hollow chests

Every single spoken word
Monotone
Each and every color
Monochrome
Every feeling
I am feeling

I am feeling
Every feeling
I am feeling
I am feeling
(Underwater, arsenic river)
I am feeling
(Underwater, arsenic river)
