

# Welcome Deathrow

DeadLock

I won't complain  
Since I watched me die  
Soul and body reconciled  
A nightmare overloaded  
Enragement uncontrolled  
Open your veins and let it go  
Unfold your wings for eternity

Welcome Deathrow  
Bow down - let's got

I am sorry for the hollow hearts  
Although we both knew better  
I am sorry for this house of cards  
Those dark days in September

I won't remain  
Since I fell asleep  
Old scars began to bleed  
My senses overloaded  
Thy hate grows uncontrolled  
Absolution of existence  
I sense the streams of blood  
Carry my perception, cut my mortal soul

Our crime - our cries  
Your saviors endless hate  
A savior blind with rage for you and me

I am sorry for the hollow hearts  
Although we both knew better  
I am sorry for this house of cards  
Those dark days in September  
I am sorry for the hollow hearts  
Although we both knew better  
I am sorry for this house of cards  
Those dark days in September

A song for a broken man... Again down on your knees  
Hell, where is your victory.... This is your last goodbye  
To life - this time

Your heaven is raining blood  
Even the ground is red flooded  
The spark ignites itself  
Open your eyes

Welcome Deathrow  
Cure me in sorrow  
Welcome Deathrow  
Cure me in sorrow

I am sorry for the hollow hearts  
Although we both knew better  
I am sorry for this house of cards  
Those dark days in September

Welcome Deathrow- Cure me in sorrow- Welcome Deathrow  
Welcome Deathrow- Cure me in sorrow- Welcome Deathrow  
Welcome Deathrow- Cure me in sorrow- Welcome Deathrow  
Welcome Deathrow- Cure me in sorrow- Welcome Deathrow.....
