

Somewhere Up Here

deadmau5

Breathe it in now
Then breathe it out
Let the air flow over me
Up high can you tell me what you see?
This life, is it more than just a dream?

Look at me now
Then look away
Can you tell me what to do?
Your eyes, they no longer speak for you
Inside, tell me where you hide the truth
Inside, tell me where you hide the truth

If you want me to stay
I need you to know
You can never ever leave me alone

If you want me to stay
I need you to know
I can never let you go
I can never let you go

Breathe it in now
Then breathe it out
Let the air flow over me
Up high can you tell me what you see?
This life, is it more than just a dream?

Look at me now
Then look away
Can you tell me what to do?
Your eyes, they no longer speak for you
Inside, tell me where you hide the truth

If you want me to stay
I need you to know
You can never ever leave me alone

If you want me to stay
I need you to know
I can never let you go
I can never let you go
