

Sunlight

deadmau5

They're working in the sunshine through the sun...
Light, light, light...
They're working on the sunshine through the sun...
Light, light, light...

They're working on the sunshine through the sun
I've been here on the place where you belong

They're working on the sunshine through the sun
I've been here on the place where you belong

They're working on the sunshine through the sun
I've been here on the place where you belong
