

# A Flight On An Angels Wing

Deadsoul Tribe

Come to me and leave your fear  
Come with me and follow near  
So Tired of the lies they laid upon you  
Open your eyes, then you will see  
Try to realise  
Don't believe any more corporate advise  
On your TV

Come with me my friend

Come with me and clear your mind  
Come and leave your world behind you  
Never too late to change your direction  
Don't be afraid, you wont walk alone  
I'm gonna take a flight on an angels wing  
Far and away  
She'll carry me, carry me home

Come to me when the sirens sing  
With the cry of a world gone insane  
This sadness and this fear  
Was not meant to be here  
But the feeling has come over me

Taker, desecrater  
Shaker, sorrow maker  
Nation decimation, democration, desolation coming
