

## Already Dead

### Deadstar Assembly

We're the poison running through your veins  
We're the pleasure when you inflict the pain  
Storming the dawn we don't belong  
Subversion of your precious mind  
Look deep inside you'll find  
We're the poison running through your veins

Can you feel it  
Underneath the skin  
All of your fears are drawing near  
You will submit

Dark days unashamed  
You can't kill what's been put in your head  
Dark days unafraid  
You can't kill what's already dead  
We're already dead

Ready or not we've come like a juggernaut  
Psychosis you won't live to forget  
Alive undead we must be fed  
Our hunger is insatiable  
Sends shivers down your spine  
We're the poison running through your veins

Can you feel it  
Underneath the skin  
All of your fears are drawing near  
You will submit

Dark days unashamed  
You can't kill what's been put in your head  
Dark days unafraid  
You can't kill what's already dead  
We're already dead

Subversion of your precious minds  
Sends shivers down your spine  
We're the poison running through your veins

Dark days unashamed  
You can't kill what's been put in your head  
Dark days unafraid  
You can't kill what's already dead  
We're already dead...
