

# Blame It on the Devil

Deadstar Assembly

Fist first fingers up since we were born  
Unsaved angels adorned in thorns  
Ballroom dancing on the razor's edge  
Annihilate the consequences

Ignite the other me  
Become your worst enemy  
Fuck you your ideals and your pledge  
Disintegrate obliterate  
Point the finger  
Who do you blame?

Blame it on me  
Blame it on you  
Blame it on everything that you've been through  
Blame it on me  
Blame it on you  
Repent rebel  
Blame it on the devil

I'm his right hand in the flames  
Drinkin' with the devil he knows my name  
A vengeance with no hearts to mend  
As we jump into the fire again

Arise the monster me  
Ruthlessness sets you free  
Fuck you your ideals and your pledge  
Disintegrate obliterate  
Point the finger  
Who do you blame?

Blame it on me  
Blame it on you  
Blame it on everything that you've been through  
Blame it on me  
Blame it on you  
Repent rebel  
Blame it on the devil
