

Celebutards sucking off the masses  
Can you see their cunts in the frenzied flashes  
Has your idol left you feeling vital  
Or made you suicidal  
Fuck em on tape or blacken their eyes  
It's sure to win the prize

Welcome to the fame of the insane  
Welcome a delusional game and the pain  
Welcome to the fatal facade  
Go fuck your dreams and fuck your god

Place them on a pedestal  
Are you feeling reprehensible  
Infatuation shines like a star  
Has it left you with scar

Generated for the masses  
Into submission  
Perfection on a pedestal  
Pissing the decision now

Was it a life long dream  
Never was what it seemed  
So sad pretty you afraid to start new

You vicariously live the life  
Keep asking yourself why  
Media makes the icon  
Bright lights they blind
