

We are the architects of our destruction
A cavalcade of the freaks for the beast
Our cup runneth over with seduction
Now let the inner demons fly free

It's fucking filth
It's fucking filth
We're going to hell
It's fucking filth
It's fucking filth
We are the scourge
Yeah we are the filth

We're taking over corruption defines us
All hell is breaking loose for the youth
Godspeed this riot infected by virus
This time we're gonna give and take the abuse

It's fucking filth
It's fucking filth
We're going to hell
It's fucking filth
It's fucking filth
We are the scourge
Yeah we are the filth

We are the architects there is no stopping it
Our scream is monstrous we're building the beast
