

Into Light

Deadstar Assembly

Another day feeling the pain
Darkness fell and I can't find my way
You lift me up and with your touch
Finding the strength to break these chains
And carry on

Darkness living
Darkness dying
Now we're killing this disguise
Our will is burning
The page is turning
Together we're rising into the light

Our paradise is paralysed
Demystify everything I keep inside
Because of you I'll see this through
The storm will turn it can't break this heart in two

Darkness living
Darkness dying
Now we're killing this disguise
Our will is burning
The page is turning
Together we're rising into the light

Darkness living
Darkness dying
Now we're killing this disguise
Our will is burning
The page is turning
Together we're rising into the light

We will rise...
