

Overdose

Deadstar Assembly

Save me

Your lips they taste like poison
Each kiss is my misfortune
Our life of vice comes together tonight

So wrapped up in this darkness
I'm reckless and you're heartless
This love I will defend
And we're killing ourselves again and again

It feels so right
Taking off like a satellite
It's the devil that we know
Now it's 1, 2, 3, go!

Bang bang
Play the game go insane
Deep inside you're what I need the most
Save me
Take the pain go insane
Another night another overdose
Another overdose

Received the invitation
That leads us to damnation
Enjoy the ride and the devil in disguise

It feels so right
Taking off like a satellite
It's the devil that we know
Now it's 1, 2, 3, go!

Bang bang
Play the game go insane
Deep inside you're what I need the most
Save me
Take the pain go insane
Another night another overdose
Another overdose

We play the game
Then go insane
It's time for fame
Another overdose
These neon nights
We're taking flight
It's what we like
Another overdose
You cannot blame us
You cannot tame us
We're gettin' famous
Another overdose
