

# Precious Nothing

Deadstar Assembly

I know your bad for me  
It makes me want you more  
I will do anything  
Cause I'm your filthy whore.  
You keep me down  
And i cant face the day  
You keep me bound  
And cant escape the fray  
I'm much more than this  
But i dont mean much  
I dont matter to you  
Cause i'm just a fuck  
I should've never beleived those things you said  
Everything i felt inside is dead  
I thought i meant something  
I guess not i'm a precious nothing to you  
I keep on losing face  
Until i'm erased  
Welcome to the trends  
And spread the pop disease  
You cant lose the friends  
That spread their legs to please you  
I should've never beleived  
The things you said  
Everything i feel inside is dead  
Wear The Mask!
