

Will Not Die

Deadstar Assembly

You said we were powerless
That was the first mistake
These attitudes are criminal
Deep in the devil's wake
Your resisting us is strengthening our shine
Keeping us alive this is our battle cry

Only the last in line
Will not die
Only the strongest survive
Will not die
And we'll defy it deny it
We'll fight it
Only the last in line
Will not die

Destructive and violent
Raise the cup spilleth over me
Leave the suffering for the saints
Let the sinners set you free
Unleash the rock god and the animal inside
We won't be taken tonight
Your resisting us is beckoning our shine
Keeping us alive this is our battle cry

Only the last in line
Will not die
Only the strongest survive
Will not die
And we'll defy it deny it
We'll fight it
Only the last in line
Will not die
