

Do you believe in the sands of time
To bring it back in reverse, rewind
Yes, I believe in the sands of time
'Cause now they got me feelin' like the world is mine

Is there a need in life for something clearer
A sudden urge to reach beyond the mirror
I'll (be) there when the darkness of the year
I'm sure invades in the place we came to fear

So we were once from a world divine
Now we proceed toward the end of time
As we were once in a place sublime
Now we will see the final tide

Do you believe in the sands of time
To bring it back in reverse, rewind
Yes, I believe in the sands of time
'Cause now they got me feelin' like the world is mine

Or could it be the time for something real
Another one of the forces that we feel
As you destroy the world we safely weild

So we were once from a world divine
Now we proceed toward the end of time
As we were once in a place sublime
Now we will see the final tide

Do you believe in the sands of time
To bring it back in reverse, rewind
Yes, I believe in the sands of time
'Cause now they got me feelin' like the world is mine

Do you believe in the Hand of Time
Do you believe that it makes the things go 'round
With intent to increase the mind no doubt
Waves spread the love throughout

Were we born to make an engine loud
Or were we brought here to die
