

## Break

Deaf Havana

Just another one  
Just another empty evening  
Swear that I'd be done  
But I'm just kinda stuck in feeling I  
Don't know how to love  
I don't know rid these demons  
Wish that I could run  
But I'm crawling back to you  
Crawling back to you

You keep me hanging on till I break  
You keep me hanging on till I break

Turning into something I hate  
I've been everything but awake  
Only sleeping, in a fever dream that I can't escape  
With nothing to save me now

I'm a little lost cause  
And you're my little stabiliser  
Keeping me afloat on  
A river endless lies and I  
Don't know how to trust  
I don't know how to kill these demons  
Wish that I could run but I'm crawling back to you  
Crawling back to you

You keep me hanging on till I break

Turning into something I hate  
I've been everything but awake  
Only sleeping, in a fever dream that I can't escape  
With nothing to save me now

You keep me hanging on till I break

Turning into something I hate  
I've been everything but awake  
Only sleeping, in a fever dream that I can't escape  
With nothing to save me now

You keep me hanging on till I break  
You keep me hanging on till I break
