## Things Change, Friends Leave And Life Doesn't Stop For Anybody

**Deaf Havana** 

You truly are your mothers son, raised on praise Doctors appointments and getting what you want Your school years passed you by without a scratch Your fathers pride, good intentions and your mothers loving han ds

Being young at heart became a sin, (Being young at heart became a sin)

So you grew up and you gave in

Remember when you said, all you wanted was to be where you are today

I remember when you said that you'd be in this with us 'til the very end

Peacfully we watched you slip away, into the depths of the drug s

And the mistress on whos mental state you'd prey

If she was the spark to ignite the flame, then we were the floo ds

When the fires came but she held the torches high for you that day

Remember when you said, all you wanted was to be where you are today

I remember when you said that you'd be in this with us 'til the very end

Being young at heart became a sin, (Being young at heart became a sin)

So you grew up and you gave in

Remember when you said, all you wanted was to be where you are today

I remember when you said that you'd be in this with us 'til the very end

My dear old friend
