

This Afternoon Was A Total Disaster

Deaf Havana

Believe me I never trusted you,
when you decided that our party was over.
Because we love the power hour,
and its an hour that lasts all night baby .

I didn't play a single part in this I swear
I didn't play a single part in this I swear

My position comes at a price.
The temper's worse but the compliments are nice.
You've already had one foot out the door
for quite some time and I'm already losing sleep

We've been making this whole thing up,
as we've been going along and along!
Yeah, we've been making this whole thing up,
as we've been going along and along!

from now on you'll never go back to sea
you'll just be rolling around in the dirt
because your of a higher class than me

We've been making this whole thing up,
as we've been going along and along!
Yeah, we've been making this whole thing up,
as we've been going along and along!

and I didn't play a single part in this I swear
and I didn't play a single part in this I swear
and I didn't play a single part in this I swear
and I didn't play a single part in this I swear

I'm not all fucking right with this
I'm not all fucking right with this

and then I'm told by the snorting acquaintance he says
cut your losses man its time to leave
and then I'm told by the snorting acquaintance he says
cut your losses man its time to leave
but now its only a matter of time until its too late
