

In dreams speaking  
In other language  
Held you closely  
Fed on lightning

How could you see beacons shining in the shallow?  
How could you know relief while sinking to  
Mirages out of view?

Crawl and wander  
Tears to water  
Growing this garden alone

How could you see beacons shining in the shallow?  
How could you know relief while sinking to  
Mirages out of view?

Blues and golds  
Jewels for Heaven knows, I know  
I hear the sound  
Imagine loving you  
At funerals for the few

Navel gazing, birds escaping  
Before the quake comes crashing  
Navel gazing, birds escaping  
Waiting in the light to die

Bound wet legs splayed for the heat wave  
For the heat wave  
Bound wet legs splayed for the heat wave  
Waiting in the light to die
