

Right Round Here

Dean Brody

Right round here is where
I get to say that I come from
Learned how to fish, hold down a dip
And sing a country song

It's the kinda town where
Your roots touch down
A thousand feet below
Passed down for generations
Yeah I'm proud to say that

We were raised right round here
On bonfires and burnt CDs
On the back of my dad's John Deere
In my hand-me down Levi jeans
We fell in love
We rode in trucks
When we drank
We drank too much
Looking back at what we had
Man it's so clear
We were raised right round here

Right round here's is where
I thought that love couldn't be found
Thought it be some other place
So far away
But she was two doors down
We were family friends
She just fit in
And Mama really liked her
And maybe if we're lucky one day
We'll make some that look just like her

And raise'em right round here
On bonfires and burnt CDs
On the back of my dad's John Deere
In my hand-me down Levi jeans
We fell in love
We rode in trucks
When we drank
We drank too much
Looking back at what we had
Man it's so clear
We were raised right round here
We were raised right round here
We were raised right round here

We were raised right round here
On bonfires and burnt CDs
On the back of my dad's John Deere...

We were raised right round here
On bonfires and burnt CDs
On the back of my dad's John Deere
In my hand-me down Levi jeans
We fell in love

We rode in trucks
When we drank
We drank too much
Looking back at what we had
Man it's so clear
We were raised right round here
We were raised right round here
We were raised right round here
