

# Trouble

Dean Brody

I walked out of Kingston, a free man  
My brother pulled up in a dust of a step-side shill  
Threw my duffle in the back  
Reached in and shook his hand  
Drove out to the roadhouse pub  
I don't have a lot of friends  
But I've always had him  
For a guy like me that's enough

I don't look for trouble but trouble finds me  
I don't look for trouble but trouble finds me  
If I could learn to back down  
Maybe find a gentler crowd  
Maybe I could change who I've been  
I ain't looking for your trouble  
But you always find me

Well I stayed in Brampton at a halfway house  
Got a job at a shop, solid friends and some pretty good hours  
But after work one night my Ojibwe friend  
Couple roughneck boys put the boots to him  
I never learned another way  
So I gave them all my hate  
And the 5-0 dragged me away  
And I'm thinking

I don't look for trouble but trouble finds me  
I don't look for trouble but trouble finds me  
If I could learn to back down  
Maybe find a gentler crowd  
Maybe I could change who I've been  
I ain't looking for your trouble  
Why you always find me?

Now I have a son just born to my beautiful wife  
And I'm gonna try hard as hell to give him a different kind of life  
When the wolf is at my door  
I don't feed him anymore  
I stand down every chance I get  
It ain't that I can't  
I just see that little man  
And the road for him lies ahead

Now I don't look for trouble, trouble can't find me  
I don't look for trouble, trouble can't find me  
Yeah I've learned to back down  
I found a gentler crowd  
I'm trying to change who I've been  
Oh come looking for me trouble  
You ain't gonna find me
