

# Crazy

Dean Geyer

Baby, come on  
Don't play games with me  
It's been too long  
Won't you set me free?  
I thought I knew well enough to say  
We had everything  
But you had other plans for me

Let it go, is what I keep telling myself  
Now I know I should've seen it going down  
Day or night, wrong or right  
She's got a hold on me

She drives me crazy  
There's no escaping  
She always gets what she wants  
She drives me crazy  
But I'm trough to her inside unbroken world

You're gone, I'm lost  
She caught up with me  
The price, the cost  
It's taken its toll, you see  
Chewed up, spat out  
I can't get no peace  
Used up  
No doubt  
It's all a game of trap and release

Let it go, is what I keep telling myself  
Now I know  
I should have seen it going down  
Day and night  
Wrong or right  
She's got a hold on me

She drives me crazy  
There's no escaping  
She always gets what she wants  
She drives me crazy  
But I'm drawn into her bent and broken world

She, she drives me crazy  
She, she drives me  
She, she drives me crazy, crazy

She drives me crazy (She drives me crazy)  
There's no escaping (Nah, nah, nah, no)  
She always gets what she wants  
She drives me crazy (Crazy)  
And I'm drawn into her bent and broken world

Don't play games with me  
Baby, come on
