

We Share the Same Space

Dean Geyer

Even though you passed me by
I still hold onto the light in your eyes
And the rose in my room
Doesn't grow, never will

And you're in my head
And you're in my head
Ohh

We share the same space
We are the same, so I
Don't understand why things are this way
Two people forced to turn their backs and walk away
'Cause they could not communicate how much they wanna stay

From the moment we met
'Til the day I let it go
You brought out a shine
On the death row chambers floor
And although we're apart
My heart is with you
My heart is with you
My heart is with you

We share the same space
We are the same, so I
Don't understand why things are this way
Two people forced to turn their backs and walk away
'Cause they could not communicate how much they wanna stay

Don't walk away
Don't walk away
Don't walk away

We share the same space
We are the same, so I
Don't understand why things are this way
Two people forced to turn their backs and walk away
'Cause they could not communicate how much they wanna stay
We share the same space (Don't walk away)
We are the same, so I
Don't understand why things are this way (Don't walk away)
Don't understand why things are this way
Two people forced to turn their backs and walk away
(Don't walk away)
'Cause they could not communicate how much they wanna stay

Could not communicate how much they wanna stay
