

# Stay Awake

Dean Lewis

Tracing our fingers from right to left, we're  
Too drunk to even walk  
All of a sudden you bring up our problems, so  
I guess you wanna talk  
'Cause they say the bigger the love, the harder the fall, well  
I'm crashing through the floor

You said you're leaving  
When the morning comes  
All packed up

If the feeling's gone  
Stay awake, stay awake, stay awake with me  
Just keep on holding on  
Stay awake, stay awake, stay awake with me

All our memories are packed into boxes  
Stacked up against the door  
'Cause they say the bigger the love, the harder the fall, well  
I'm crashing through the floor

I still feel your breath on my lips  
As you're walking out the door  
But my hand starts to slip  
Never felt like this before

If the feeling's gone  
Stay awake, stay awake, stay awake with me  
Just keep on holding on  
Stay awake, stay awake, stay awake with me

I've been looking in the mirror  
Trying to figure myself out  
I've been wondering where I went wrong  
But now you're not here  
It's like the daylight never comes  
So I'll keep on holding on

You said you're leaving  
When the morning comes  
All packed up

If the feeling's gone  
Stay awake, stay awake, stay awake with me  
Just keep on holding on  
Stay awake, stay awake, stay awake with me

If the feeling's gone  
Stay awake, stay awake, stay awake with me  
If the feeling's gone  
Stay awake, stay awake, stay awake with me
