

Once Upon A Time

Dean Martin

(Once upon a time it happened)
(Once upon a time it happened)
Believe me if you will
In one brief and breathless moment
The world stood still
I suspected sorcery
Something magic in the air
But I knew it had to be reality or you were there

Once upon a time in love-land
We had a rendezvous
We went sailing on a moonbeam
As lovers do
It was a fantasy a fairytale a fancy flight
And then it all came true
Once upon a time last night

It was a fantasy a fairytale a fancy flight
And then it all came true
Once upon a time last night
(Once upon a time)
