

Green

Dean Ray

Mary Jane, she comforts me again
Silences, the thoughts all in my head
My distant dreams of yesterday
All have deserted me and drifted far away

All this green to me, so lay me down
She's all that I am
All this green to me, and I know now
She's all that I am
She's rolled in my hands
And she taught me to love again

Hold me close, don't stray too far from home
Mary Jane, don't leave me on my own
I feel your comfort in the night
The magic dragon will make everything alright

All this green to me, so lay me down
She's all that I am
All this green to me, and I know now
She's all that I am
She's rolled in my hands
And she taught me to love again

All this green to me
All this green to me
All this green to me

All this green to me, so lay me down
She's all that I am
All this green to me, and I know now
She's all that I am
She's rolled in my hands
And she taught me to love again
