

## Bring It On

Deap Vally

You might think I'm coming to the brink  
I guess we'll see, if I'll keep it all together now

Don't think you got, got the upper hand  
'Cause I got no time for lines drawn in the sand

I'll bring it on  
I'll bring it on, bring it on, yeah  
Oh, here it comes  
So bring it on, bring it on

Trouble ahead, it's getting dangerous  
It's never far off and dance away the way I like it

Pray that these down don't do its needs  
Grab his horns now and make him say please  
Make him say please

I'll bring it on  
I'll bring it on, bring it on  
Oh, here it comes  
So bring it on, bring it on

I don't care where you went or where you're going  
Because I'm gonna show where you'll belong  
Don't matter how fast you're running, you can't still me, comin  
g  
You can't still me, coming

I'll bring it on  
I'll bring it on, bring it on  
Oh, here it comes  
So bring it on, bring it on
