

Where Do We Go

Deap Vally

Get rid of this dead weight
It's like a disease
Gotta shed that old skin
Hanging on to me

I've walked these walls
Turned up the floor
There's nothing here
I haven't seen before

Where do we go? Where do we go from here?
Where do we go from here?
Where do we go? Where do we go from here?
Where do we go from here?

Where do we go? Where do we go from here?
Where do we go from here?
Where do we go? Where do we go from here?
Where do we go from here?

Take me to the water
And take me to the sea
I don't care where we go
I just gotta leave

Where do we go? Where do we go from here?
Where do we go from here?
Where do we go? Where do we go from here?
Where do we go from here?

Where do we go? Where do we go from here?
Where do we go from here?
Where do we go? Where do we go from here?
Where do we go from here?

Where do we go? Where do we go from here?
Where do we go from here?
Where do we go? Where do we go from here?
Where do we go from here?

Where do we go? Where do we go from here?
Where do we go from here?
Where do we go? Where do we go from here?
Where do we go from here?
