It's Gettin' Easy

Dear and the Headlights

In this act I'll disguise those dead eyes Stretch tight the lips A glistening gum line Mouth curtains pulled I shine

My yellow stage light smile distracting dancing puppets on short saliva strings So you'll find comfort in a lie

My over-bite clenched, set in place Like a stack of polished, bright white dinner plates Hand in my pocket Straight jacket mind, yeah It's gettin' easy

I wish I had a single thought The least bit legitimate enough To open up my mouth and spit accuracy It's gettin' easy

In this act I'll disguise those dead eyes
Lay flat the tongue
Let the supplement slide down
Everything is fine!
And my brain is cloudy, leveled out
The pill, dissolved, it's flushing out
Everything I care about
And not replacing it with anything substantial

So I'm on my hands and knees Like a martyr callin' out his final plea The executioner looks exactly like me It's me! It's gettin' easy

My over-bite clenched so tight Like a stack of dinner plates all polished white Hands at my side Straight jacket mind, alright It's gettin' easy

And I wish I had a single thought The least bit legitimate enough And I wish I had a single thought The least bit legitimate enough (And I wish I had a single thought....) And I wish I wasn't on my hands and knees Like martyr callin' out his final plea The executioner looks exactly like me It's me! It's gettin's easy

In this act I'll disguise those dead eyes Like a stack of dinner plates all polished white Hands at my side Straight jacket mind, alright Titles gettick akerdy of . Sponzor: w
