

Victory

Dear Reader

You pray to your god and I'll pray to mine
And we'll see whose god is listening this time
You pray to your god and I'll pray to mine
And we'll see who stands in the morning

Saddle up the horses
God will give us the victory
Give us the victory
Give us the victory
Saddle up the horses
God will give us the victory
And if he does not we will join him

You pray to your god and we'll pray to ours
And we'll see whose god has battle winning power
You pray to your god and we'll pray to ours
And we'll see who stands in the morning

Ask the ancestors
They will give us the victory
Give us the victory
Give us the victory
Ask the ancestors
They will give us the victory
And if they do not we will join them

Saddle up the horses
God will give us the victory
Give us the victory
Give us the victory
Saddle up the horses
God will give us the victory
And if he does not we will join him
