

Last Place

Deas Vail

Maybe it's time for that stage in our lives
Let's be honest
And more than our pride is our need to survive
So let's choose this
And the hardest part of letting go
Is letting go of our control
To fall into place
Help me fall into place
Cause I'm just waiting

So go for the last place
Cause the last place will be the first
And let's change our stance
We'll stand taller now

The air in my lungs fills the voice of my heart
It sings of good things

So go for the last place
Cause the last place will be the first
And let's change our stance
We'll stand taller now

Go for the last place
Cause the last place will be the first
Let's change our stance
We'll stand taller now
