

# Summer Forgets Me

Deas Vail

Better days are held in a photograph  
Of summer escapes  
Of daydreams and tourist traps  
Take me back  
I was never alone to carry the melody  
It was never my own  
It was always apart of me  
Everything I need  
You said the words and you didn't even speak  
Baby let, let me down easy  
I see the tide, it's coming to get me  
And I don't know who you wanted me to be  
I gave a lot, but never what you need  
Winter comes, and summer forgets me  
I know your face in millions of different ways  
There's no escape from the memories of warmer days  
Ones I won't erase  
You said the words and you didn't even speak  
Baby let, let me down easy  
I see the tide, it's coming to get me  
And I don't know who you wanted me to be  
I gave a lot, but never what you need  
Winter comes, and summer forgets me  
Blind from the flash  
I'm frozen in time  
Everything was perfect  
Everything was right  
Now I'm lost in this world  
All the colors seem wrong  
Give it just a moment  
Just a moment  
You said the words and you didn't even speak  
Baby let, let me down easy  
I see the tide, it's coming to get me  
And I don't know who you wanted me to be  
I gave a lot, but never what you need  
Winter comes, and summer forgets me  
Summer days are held in a photograph  
It's never the same  
We can't go back...
