

# Enslaved

## Death By Stereo

We live in crucial times, we gotta draw some lines  
This keeps on escalating  
If you just sit and wait, and fucking hesitate  
This is the life you're wasting  
I'd rather die and fight, than have another night  
This keeps on escalating  
You heartless fucking cunts, you represent the 1  
Never anticipating

We close our eyes  
And see your death  
All of our hearts and minds, we never end

We are enslaved - I never thought that this was freedom  
We are enslaved - I never thought that things were even  
I live my life to fight you  
You try to keep us as you see us  
We are enslaved - we will attain your end

Our country is getting blurry, it's hard to see the truth  
This keeps on escalating  
Now you just sit and wait, the bomb will be the proof  
This is the life you're wasting  
I'd rather die and fight, than be your boy tonight  
This keeps on escalating  
You heartless gutless cunts, you represent the 1  
Never anticipating

We close our eyes  
And see your death  
All of our hearts and minds, we never end

We are enslaved - I never thought that this was freedom  
We are enslaved - I never thought that things were even  
I live my life to fight you  
You try to keep us as you see us  
We are enslaved - we will attain your end

As this life unfolds, we ride to our deaths with style  
Never looking back, into the fire  
We will attack

We are enslaved - I never thought that this was freedom  
We are enslaved - I never thought that things were even  
I live my life to fight you  
You try to keep us as you see us  
We are enslaved - we will attain your end

We are enslaved - I live my life to fight you...
