

I'm gonna smash this fucking place  
I'm gonna live right in your face  
The world won't spin forever  
Man on a mission, to destroy  
All boundaries set up to decoy the mind  
Won't spin forever

This is the time, this is the place  
I will not let this life just waste  
I see the followers just fall  
I remain stronger than them all

One chance to leave my mark on earth  
Before it's gone or I am first  
The world won't spin forever  
I have an instinct that says you're wrong  
Your system deconstructed in a single song  
And it won't spin forever

This is the time, this is the place  
I will not let this life just waste  
I see the followers just fall  
I remain stronger than them all  
And if you look into my eyes  
You'll see there's nothing there to hide  
I wear my party on my sleeve  
In God you trust, I believe in me

Our words colliding  
But I'm not sliding  
I will overtake my destiny  
I can't look back now  
This is my path and this is who I was born to be

This is the time, this is the place  
I will not let this life just waste  
I see the followers just fall  
I remain stronger than them all  
And if you look into my eyes  
You'll see there's nothing there to hide  
I wear my party on my sleeve  
In God you trust, I believe in me
