

Sing Along with the Patriotic Punks

Death By Stereo

Go!

You can take my work
You can take my place
I think you're a fool
I think you've got bad taste

You can take your flag
You can take your pride
You can bend right over
Your asshole's open wide
Open wide
Open wide
Here I come

Yeah right!

I've got pride
Pride in a system, that's designed to waste all your minds.
Go!
USA
It's the way
So wave them real on flag day
It's your right to be proud
So scream it and shout it
Shout it
Shout it out loud

Buy into lies
The government feeds your meathead mentality
Go, go to work
Don't do it for you,
But for state, country, national church
It's the way
Today your paycheck will wash sins away
It's ok, don't be afraid until Uncle Sam robs you blind
Did you hear what I said you are blind
Hear what I said you are blind
Blind

My country tis of thee
Sweet land of liberty
Full of national pride
Come on baby, open wide

You can take my work
You can take my place
You can let em win
Spit right in your face
Spit right in your face
Spit right in your fucking face!
