

(That's me)  
(And that's all you)  
Can I break it down?  
(And that's all you)  
Can I break it, can I break it down?  
(And that's all you)  
Can I break it down?  
(Oh, Mya)  
(And that's all you)  
(That's me)  
(And that's all you)  
Can I break it, can I break it down? (Oh, Mya)  
(And that's all you)  
(That's me)  
(And that's all you)  
Can I break it, can I break it down?  
Can I break it, can I break it down? (Oh, Mya)

Nah, n-nah, n-nah, wh-what it do?  
Humiliation, I refuse  
Inside shaking, nah, I'm cool, got this  
I'm not you  
Bow down, give it-give it to me, baby  
I gotta do my girl, she's down  
B-B-Been only since I-  
In the truck  
Give me some more, I said it's calm  
Callers at the door (Can I break it down?)  
Jump on 'em, my bumps in the whip  
Crazy from the heat, talk to the... ergh  
(Can I break it, can I break it down?)  
Perversion mastiff, seven fingers left  
Still curtain pumping, n'oh, I lay Jesus fresh to death  
And God is panic, they gon' tremble  
Here me swear you seen the devil  
Hear me step-to with it, fatal  
These faces roundtable

(And that's all you)  
(That's me)  
(And that's all you)  
Can I break it, can I break it down? (Oh, Mya)  
(And that's all you)  
(That's me)  
Can I break it down?  
(And that's all you)  
Can I break it, can I break it down? (Oh, Mya)

Try to break this cycle, broke me  
Told me, "You'll see," you don't know me  
Kinda freaky, she's bony  
So sh-she on me (on me)  
Listen closely  
Why don't we, one night only?  
(Can I break it, can I break it down?)

Runnin' out of, runnin' out of

Runnin' out of, runnin' out of  
-ck around and lose my mind, I'm on that  
(Can I break it, can I break it down?)  
Runnin' out of, runnin' out of  
Runnin' out of, runnin' out of  
You're runnin' out of tricks  
(Oh, Mya)

Jungling out of my shoulders  
Light at the end of the tunnel's  
A lie, I look forward to runnin' 'em over  
Eye of the storm of the dolo  
There you go, there you go  
Down that road, down that road  
(Can I break it down?)  
Lost in exhaust with the windows closed  
Shut the door, nothing more I can do  
Try to see why it would be like this  
Tell her roam like palindrome, back and forth  
Like all that be, I can see from my back porch  
Do it that, do it, I can't try no more  
Difficult to live it slow, I'm so bored  
If I'm not ever squattin' on my bike  
Ridin' 'round like, "Kid, well, now I have no life"

(And that's all you)  
(That's me)  
(And that's all you)  
Can I break it, can I break it down? (Oh, Mya)  
(And that's all you)  
(That's me)  
Can I break it down?  
(And that's all you)  
Can I break it, can I break it down? (Oh, Mya)

Cha-ching slot, micro dot  
Bet and lost my spleen in Reno  
All them dimes for your casino  
Jungle bars, we mescalina  
Thin walls, heaving  
Linoleum splitting  
Lost in dead  
Space emitting a metallic smell, can't take its sickness

Runnin' it, runnin' him over  
Can I break it, can I break it down?  
Runnin' it, runnin' him over  
Can I break it, can I break it down?  
Runnin' it, runnin' him over  
Can I break it, can I break it down?  
Can I break it, can I break it down?

Runnin' out of, runnin' out of  
Runnin' out of, runnin' out of  
-ck around and lose my mind, I'm on that  
(Can I break it, can I break it down?)  
Runnin' out of, runnin' out of  
Runnin' out of, runnin' out of  
You're runnin' out of tricks  
(Oh, Mya)

666, I'm at the gates  
9, the gate's coming down

8, I escape  
11, I'll never be found  
7, I die  
13, swallow my tail  
15, I'm on fire  
51, I'm off the scale

(Oh, Mya)  
(And that's all you)  
(That's me)  
(And that's all you)  
Can I break it, can I break it down? (Oh, Mya)  
(And that's all you)  
Runnin' it, runnin' him over (That's me)  
(And that's all you)  
Can I break it, can I break it down? (Oh, Mya)  
(And that's all you)  
Runnin' it, runnin' him over (That's me)  
Down (And that's all you)  
Can I break it, can I break it down? (Oh, Mya)  
(And that's all you)  
Runnin' it, runnin' him over (That's me)  
Down (And that's all you)  
Can I break it, can I break it down?
