

Black Road

Death Plus

Long nights black road
Wanna die on my own
Headlights in the fog
Close my eyes in the smoke
I been out here so long
Don't know where I'm gonna go
I don't need nobody
Yeah I'm just a lost soul

Lost cause lost hope
Feel my pockets lost my phone
Prolly dropped it on the ground
Buried somewhere in the snow
Yeah, never gonna go back home
I don't want no friends
I just wanna get stoned

Dead body on the side of the road
Put my body in a hole
Watch as I turn to a ghost
Just another night on the road

Dead body on the side of the road
Put my body in a hole
Watch as I turn to a ghost
Just another night on the road
